

**Day 20 – July 9, 2025**

**Topic:** UI/UX Improvements with Tailwind CSS & Shadcn UI

### **Introduction**

Today I focused on enhancing the app's design for better user experience.

### **Techniques**

- Styled components with Tailwind CSS.
- Used Shadcn UI for ready-made components.

### **Challenges Faced**

- Responsive design adjustments for mobile screens.

### **Key Learnings**

- Good UI improves usability and engagement.

### **Conclusion / Reflection**

UI/UX enhancements made the app visually appealing. I'll continue refining the design.
