

Day 21 – July 10, 2025

Topic: Voice & Chat AI Integration (Google Gemini)

Introduction

Today I added AI-powered voice and chat features.

Techniques

- Integrated Google Gemini API for text-to-speech and chat responses.
- Connected AI to React frontend for interactive features.

Challenges Faced

- Handling response latency and maintaining context.

Key Learnings

- Conversational AI enhances app interactivity.

Conclusion / Reflection

It was fun seeing AI respond in real-time. I plan to add more AI capabilities.
