Day 19 – July 8, 2025

Topic: Payment Integration (Razorpay)

Introduction
 Today I implemented a secure payment gateway in my web app.

Techniques

- Integrated Razorpay API for transactions.

- Handled order creation, verification, and success callbacks.

Challenges Faced

- Managing API keys and security for transactions.

Key Learnings

- Payment integration is essential for e-commerce apps.

Conclusion / Reflection
 Successfully added payment feature. Learned real-world integration steps.
